Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 and 3-7, drawn to a method of loading a housing for a medicament dispenser with the particulars of the leader strip (class 206 or 242);

Group II, claims 1 and 8-11, drawn to method of loading a housing for a medicament dispenser with the particulars of the bobbin for the leader strip (class 242, subclass 174);

Group III, claims 1 and 12-14, drawn to a method of loading a housing for a medicament dispenser with the particulars of fixing the tail end of leader strip to a medicament carrier (class 242, subclass 172);

Group IV, claims 1, 15, and 40-42, drawn to a method of loading a housing for a medicament dispenser and operating the dispenser (class 221, subclass 25);

Group V, claims 1, 16, 17, 33, and 34, drawn to a method of loading a housing for a medicament dispenser with the particulars of the housing (class 206, subclass 398, or class 242, subclass 170);

Group VI, claims 1, 2, 18-21 and 29, drawn to a method of loading a housing for a medicament dispenser with the particulars of the medicament carrier (class 206, subclass 486);

Art Unit: 3651

Group VII, claims 1, 22-26, and 30-32, drawn to a method of loading a housing for a medicament dispenser with the method of coiling of a preassembly (class 242, subclass 159);

Group VIII, claims 35-39, drawn to a method of loading a housing for a medicament dispenser with the particulars of coiling a medicament carrier within the dispenser (class 242, subclass 159).

2. The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the claims within respective groupings do not contain the same special technical features, those that defines a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of

Art Unit: 3651

record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Khoi H. Tran whose telephone number is (571) 272-6919. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Crawford can be reached on (571) 272-6911. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
